Work Experience

Zunkz, Web3 Members Rewards Program | Team Leader & Customer Success Manager | Remote | Nov 2021 - Current

- Lead a remote team of 9, driving customer success initiatives, managing support channels, and fostering a positive work environment to maximise team performance.
- Orchestrated the development and implementation of new customer onboarding procedures, resulting in a 15% increase in new member retention.
- Significantly improved member communications by streamlining customer support processes and reducing team response times by 20%.
- Introduced and managed weekly community events, including an investment education hour and special events like casino nights, which successfully increased customer engagement and retention.
- Directed the development and launch of an interactive website and rewards program, directly contributing to increased community satisfaction resulting in a 35% increase in positive community feedback.
- Manage the project financials, including treasury, budgets, and payroll, ensuring efficient resource allocation and financial stability.

HealthEgo, Health & Fitness Social Platform | Founder & Project Manager | Remote | Mar 2016 - Dec 2022

- Spearheaded the creation, development, and launch of a health & fitness social media app, building a platform to foster a supportive health focused community.
- Managed multiple teams of outsourced developers through various product releases, ensuring timely and on-budget delivery.
- Successfully launched iOS and Android apps, expanding the platform's reach and accessibility to a wider user base.
- Navigated complex challenges from unreliable development groups, demonstrating problem-solving and conflict resolution skills to maintain project momentum.

Health Coach, Private Executive Health Coaching | Health Coach | Palo Alto, CA | Mar 2016 - Nov 2021

- Developed individualised health & wellness plans for high-level VC executives and their families, focusing on preventative health strategies.
- Organised and managed client progress through daily check-ins, scheduled surveys, and weekly consultations, ensuring personalised attention and achieving tangible results.
- Practiced information security and data privacy, utilising NDAs and data classification methods.

GreatLyfe, Marketplace for Wellness Services | Operations Manager | San Jose, CA | Sep 2015 - Mar 2016

- Optimised team workflow and resource allocation, delivering two major product releases ahead of schedule and exceeding performance targets.
- Established and enforced strategic project planning and tracking systems, ensuring on-time, on-budget delivery of key milestones and driving operational efficiency.
- Implemented Agile methodologies to streamline operational workflows, optimise resource utilisation, and empower team ownership, resulting in significant cost reductions and improved project delivery timelines.
- Developed and presented a compelling business case to secure initial angel investment, demonstrating strategic resource acquisition and financial planning capabilities.

Equinox, Health & Fitness Club | Personal Training Department Manager | Palo Alto, CA | Dec 2012 - Sep 2015

- Managed a team of 3 managers and 45 personal trainers, overseeing all aspects of department operations, including scheduling, budgeting, training, and performance management, to ensure consistently high service delivery.
- Developed and implemented new employee training programs, directly contributing to a 10% increase in both employee and client retention.
- Streamlined department operations through multiple concurrent projects, resulting in cost reductions and process improvements.
- Cultivated a culture of continuous improvement, ownership, and team growth by conducting weekly meetings for goal setting, performance reviews, and coaching.
- Optimised the hiring process by developing and implementing a new system that reduced time-to-hire.
- Provided regular project status reports and department analysis to corporate management, ensuring transparency and accountability.
